Society News

2017 – 20th ANNIVERSARY Primary Care Diabetes Europe (PCDE)

2017 is an important year for PCDE celebrating its 20th Anniversary with some exciting activities. These activities will be published online shortly. Stay connected and check updates on www.pcdeurope.org

2016 PCDE Conference

PCDE held its 14th International Primary Care Diabetes Conference on 29-30 April 2016 in Barcelona. Almost 300 delegates from 27 different countries attended.

Stay connected and check out what happened at the conference. The webcast of the lectures and pictures of the conference are available on www.2016pcdeconference.org and www.pcdeurope.org

Conference Abstract book- read the abstracts of the lectures here.

The next conference will be the **15th International Primary Care Diabetes Conference in Spring 2018 in Barcelona**. Stay connected and check updates on www.pcdeurope.org

ANNOUNCEMENT - PCD JOURNAL

Primary Care Diabetes has undergone some important changes:

- First is an increase in issue frequency, from four to six issues per year, reflecting a steady growth in article submissions and journal profile.
- Second is that PCDE member access to the PCD journal is now electronic.

These changes together reflect the journal's growing stature and the broader move of scientific literature online with the additional functionality that offers.

Thank you for continuing to read and support the journal.

Johan Wens
Chairman PCDE

Announcement (becoming an active member for PCDE).

PCDE (Primary Care Diabetes Europe) is a non profit NGO with over 4000 members in different European countries. Our mission is to provide a focal point for primary care clinicians and their patients by promoting high standards of care for people living with diabetes throughout Europe. Emphasis is placed on incorporating evidence based medicine into daily practice as well as promoting diabetes education and research in primary care.

PCDE is active in different fields of diabetes care :

- Research: within EASD as the official “Study Group of Primary Care Research in Diabetology” and involved in various international projects as ‘PERCEDIME EU’, ‘Barriers to Insulin ME’ ‘Diamap’, ‘Sweet’, ‘MANAGE CARE’, ‘Calliope’, ‘Image’, ‘TransFoRm’, DAWN2, CKD Pilot Study, etc.
- Conference organisation: WONCA; Since 2010 PCDE is a Special Interest Group, and as such organises diabetes tracks within the congress.
- Annual or bi-annual stand alone conferences or together with other associations www.2016pcdeconference.org, <http://www.2014pcdeconference.org/>, www.pcdeurope.org.
- Advocating diabetes at the political level by participating in the “European Coalition for Diabetes”, together with IDF-Europe, FEND and EURADIA.

- PCDE's peer reviewed Journal "Primary Care Diabetes", published by Elsevier, is indexed in Thomson Reuters SCI (1.26), Pubmed, PsycInfo and Scopus.
- The website <http://www.pcdeurope.org> is under continued development.
- PCDE is connected with other international associations such as WONCA, EURADIA, IDF, EASD, ECD, EGPRN EPCCS, FEND PCDS, etc.

Due to expansion of our activities, PCDE would like to get in contact with new active members.

We are looking for primary care clinicians...

- Preferably with an academic background
- Connected with a primary care association in their home country
- With a special interest in high quality diabetes care
- Available for dedicated tasks in promoting diabetes in their country and abroad
- Looking for networking across Europe

If you are interested in becoming an active member for PCDE please contact:
